

# UPDATES

## Primary Care Reform Collaborative (PCRC)

Dr. Nancy Fan, DHCC chair

ChooseHealth  
DELAWARE

# MAY 2022 PCRC MEETING

- The Office of Value-Based Health Care Delivery presented updates on their 2023 rate filings.
  - Rate filings for individual and small group markets are due June 15th. Rate filings for the large group market were extended out to September 1st.
  - All templates and instructions for payers are now available on DOI's website
- Fred Gibson and Dr. Nancy Fan presented updates from the two PCRC workgroups: Payment and Attribution and Care Coordination.
- The PCRC began discussing the second component of SBI20's PCRC mandate, which is regarding provider compliance.

# WORKGROUP UPDATES

- The Payment and Attribution Workgroup has met four times to provide recommendations for the PC Model; the Care Coordination workgroup has met twice.
- This model is currently being finalized and will be presented to DOI and the PCRC in the next two weeks.
- This is just Version 1.0 of the PC Model, meaning it is a bit high level with a lot of flexibility due to the quick turnaround time.
- A more in-depth review of the Model will take place at the next DHCC meeting once the finalized version is reviewed by the PCRC.

# SBI 20 MANDATE: PROVIDER COMPLIANCE

- SBI 20 states that along with the development of a new value-based payment model, DHCC and the PCRC are also to monitor compliance of all alternative payment models that promote value-based care within the State.
- This may include data solicited from health insurers, quality and utilization reports from practices enrolled in these models, demonstration of practice transformation support for providers, and evaluation of progress towards milestones.
- It was decided to start collecting data in January 2023 on provider compliance with a lookback period of 2022. This data will include how many individuals are in a value-based payment model and what exactly those models entail.
